

ESTHER NAMBUYE WANAMBUKO

A front end developer

Experience: 2 years | **Available:** Immediately | **Location:** Kenya

nambuyeesther93@gmail.com | +254769232988

ABOUT ME

I am a motivated learner in coding and frontend development with a strong interest in building simple and user-friendly web applications. I have foundational skills in HTML and CSS and enjoy creating responsive and visually appealing web pages. I am continuously improving my understanding of web development principles, including layout design, structure, and user experience. I am able to solve basic coding problems, work on small projects, and learn new technologies quickly. I am passionate about growing my skills in frontend development and building practical solutions through code.

WORK EXPERIENCE

Smart Brains Kenya

Mid level | tutor

Nairobi , Kenya

2024-01-01 | 2026-04-01

I supported the delivery of coding lessons by assisting in teaching beginners web development concepts such as HTML and CSS. I helped prepare learning materials and guided students during practical coding exercises and projects. I provided one-on-one support to learners who needed extra help, ensuring they understood key concepts. I also assisted in managing the classroom environment by encouraging participation, maintaining discipline, and promoting a positive learning atmosphere. In addition, I monitored student progress and offered feedback to help them improve their coding skills and confidence. I also led other tutors in my assigned school by coordinating lesson delivery, supporting them in teaching strategies, and ensuring smooth execution of class activities.

Thika Road Christian School

Mid level | Assistant teacher

Nairobi , Kenya

2023-08-01 | 2023-10-01

I assisted in classroom teaching and management by supporting the main instructor during lessons and ensuring smooth class operations. I supported students' academic and personal growth by guiding them through learning activities, helping them understand key concepts, and encouraging good study habits and discipline. I also fostered a positive and collaborative learning environment by promoting teamwork,

encouraging participation, and maintaining an inclusive and respectful classroom atmosphere that helped students feel confident and motivated to learn.

EDUCATION

Kahawa Garrison Primary School

Highschool | Primary School

During my primary school years, I focused on building a strong foundation in basic subjects such as Mathematics, English, and Science. I completed classroom assignments and participated in learning activities that helped me develop reading, writing, and problem-solving skills. I also engaged in group work and school activities, which improved my teamwork and communication abilities. Throughout this period, I learned discipline, respect, and responsibility, which helped shape my academic growth and personal development.

Nembu Girls High School

Highschool | high school

During my high school years, I actively participated in both academic and co-curricular activities. I focused on my studies, completed assignments on time, and prepared for examinations effectively. I also took part in group discussions and class projects, which helped me develop teamwork and communication skills. In addition, I participated in school activities and maintained discipline and responsibility in all my duties as a student.

Afrinet Computer College

Certificate | certificate

I completed training in computer packages, gaining foundational skills in Microsoft Word, Excel, PowerPoint, and basic computer operations. I learned how to create and format documents, manage data in spreadsheets, and prepare presentations. This training improved my digital literacy, typing speed, and confidence in using computer applications for academic and professional tasks.

CAT College

Certificate | certificate

I earned a Certificate in Software Engineering, where I gained foundational knowledge in programming, web development, and problem-solving. The course covered key areas such as HTML, CSS, Python basics, and software development principles. This certification strengthened my technical skills and prepared me for building simple, functional, and user-friendly applications.

Zetech University

Diploma | diploma

I am currently a part-time student pursuing a Diploma in Software Engineering and I am in my second semester. My studies focus on programming, web development, and software design, including HTML, CSS, JavaScript, and database fundamentals. I am gaining hands-on experience through practical projects and assignments. I am expected to graduate in December next year, and I am continuously building my technical and problem-solving skills to prepare for a career in software development.

JOB SKILLS

Frontend Development (HTML, CSS)

LANGUAGE SKILLS

English

ASSOCIATIONS

Free code camp: Yes, I am a learner on freeCodeCamp, where I am developing skills in web development including HTML and CSS through hands-on projects and practice

CERTIFICATES & AWARDS

Alx Professional Development: Certificate | 2025

Soft skills at Brighter Monday: Certificate | 2025
